

SYDNEY™

The Nice™ Series offers great versatility in use as either a free-standing fire column or a mobile table-top fire: The burner is simply lifted out of the vase and can then be placed on any solid, level surface.

Nice™ is designed to add the cosiness of an open fire to long summer nights in your garden, on your terrace or anywhere indoors. The decoflame® Nice™ comes in four sizes and is available with vases in white or black as standard or various colours on request.

The burner featured in these models is made of brushed or polished stainless steel and white or black powder-coated steel and is shielded by an optic white glass surround of 8mm thickness.

STANDARD FINISH

OPTIONAL FINISH
